HOW TO INFLATE THE STAND UP PADDLE BOARD

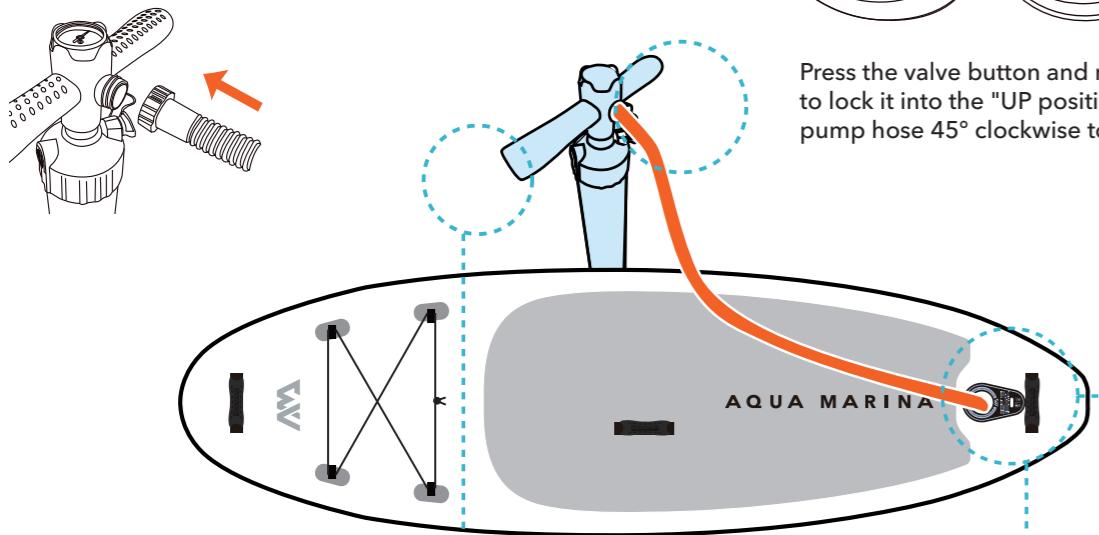

1 Unroll the board and lay it flat.

2 Connect the pump hose to the pump and ensure a secure attachment.

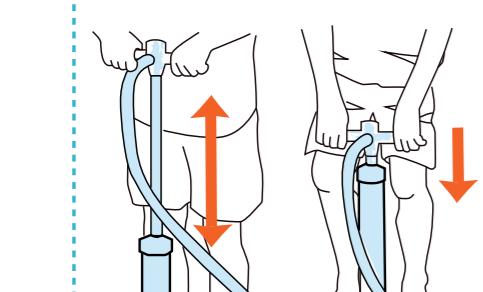

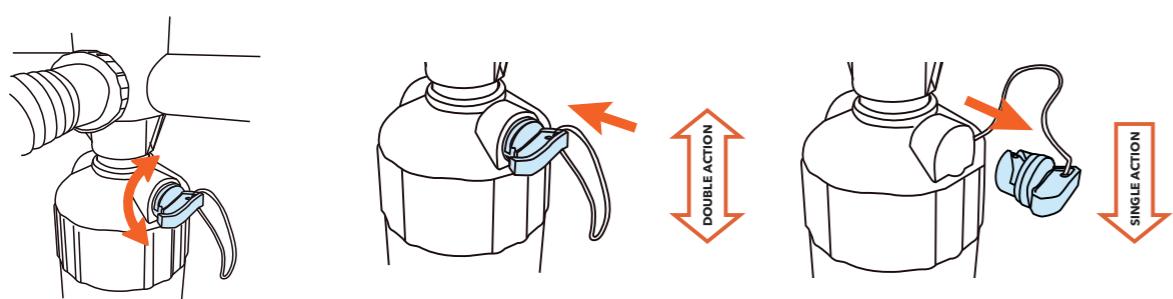

3

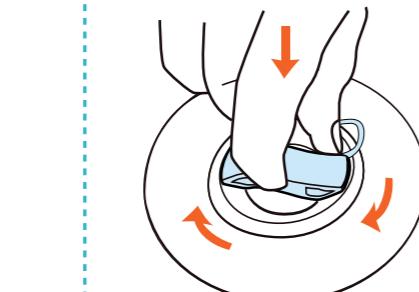

Press the valve button and rotate it 90° anticlockwise to lock it into the "UP position" for inflation. Twist the pump hose 45° clockwise to secure it in place.

4 Use DOUBLE ACTION mode for fast inflation and pump the board to 7psi, switch to SINGLE ACTION mode for easier inflation and pump the board to the max. air pressure (15 psi).

5 As the pressure increases, maintain extended arms and bend your knees to generate power with less effort.

6 After inflation, secure the valve cover by twisting it clockwise to lock it into position.

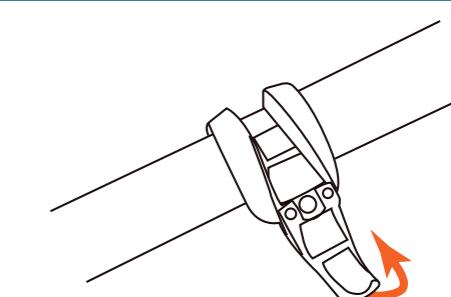

**Gauge not responding?
Just keep pumping!**

Note: Gauge will not respond until reaching 4psi. Just keep pumping for 3-5 minutes!

HOW TO INSTALL THE ISUP PADDLE

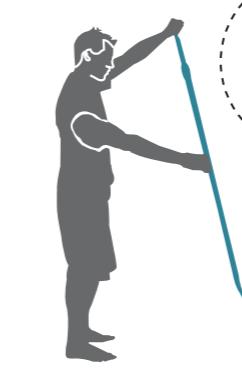

1 Secure spring pin.

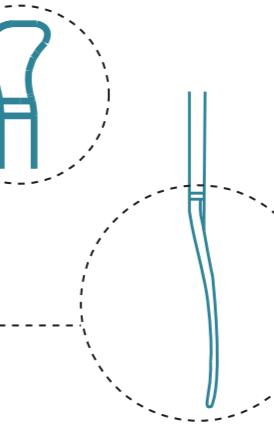

2 Adjust the tension by rotating the clasp to minimize any looseness.

HOW TO HOLD THE ISUP PADDLE

GUIDE DE DÉMARRAGE RAPIDE FR

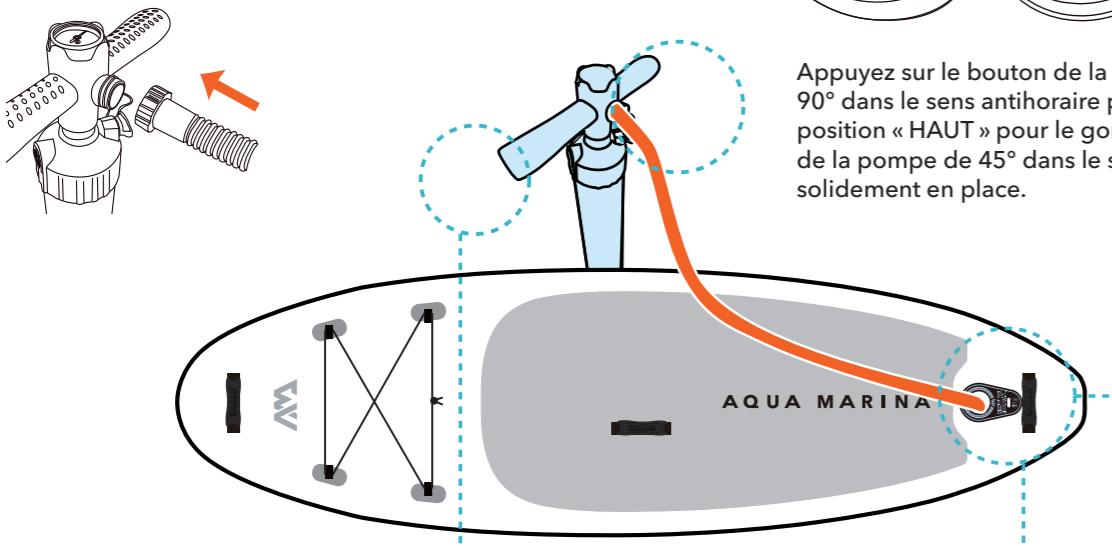

COMMENT GONFLER LA PLANCHE À PAGAIE

1 Déroulez la planche et posez-la à plat.

2 Raccordez le tuyau à la pompe et assurez-vous qu'il soit bien fixé.

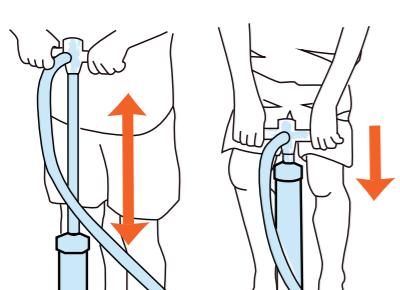

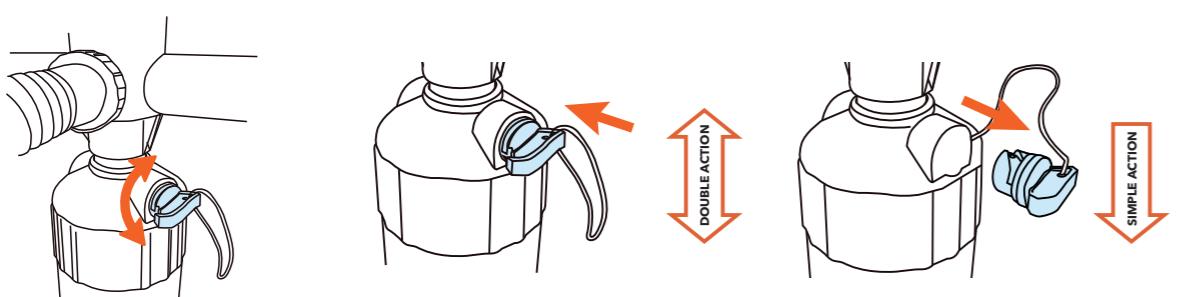

3

POSITION HAUTE

Appuyez sur le bouton de la valve et tournez-le de 90° dans le sens antihoraire pour le verrouiller en position « HAUT » pour le gonflage. Tournez le tuyau de la pompe de 45° dans le sens horaire pour le fixer solidement en place.

4 Utilisez le mode DOUBLE ACTION pour un gonflage rapide et gonflez la planche à 7 psi, puis passez au mode SIMPLE ACTION pour un gonflage plus facile et gonflez la planche jusqu'à la pression d'air maximale (15 psi).

5 À mesure que la pression augmente, gardez les bras tendus et pliez les genoux pour générer de la force tout en fournissant moins d'effort.

6

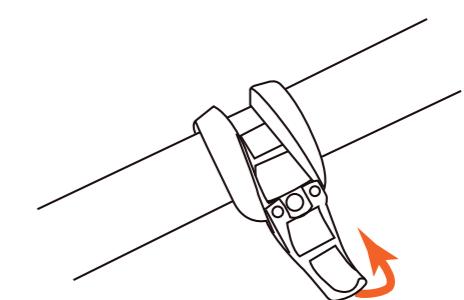

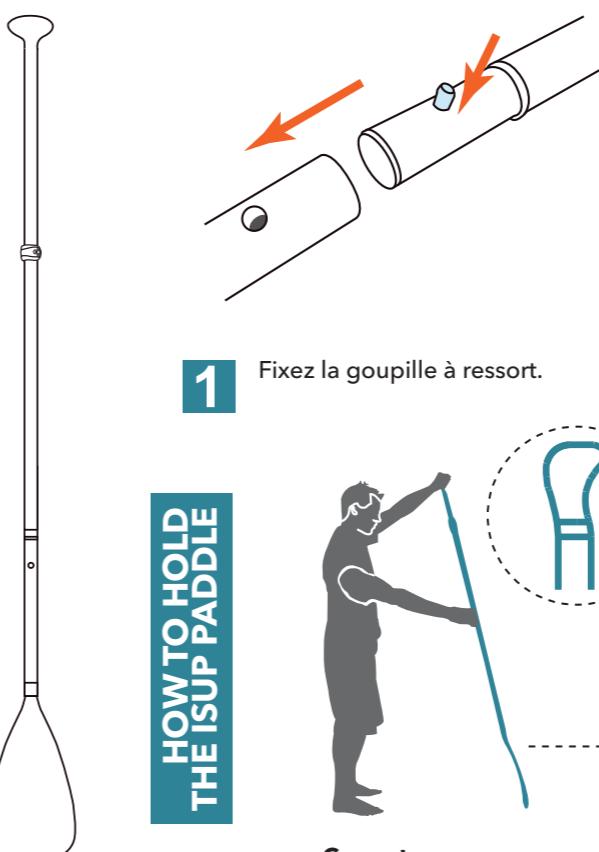

Après le gonflage, fixez le capuchon de la valve en le tournant dans le sens horaire pour le verrouiller en position.

Le manomètre ne réagit pas? Continuez à pomper!

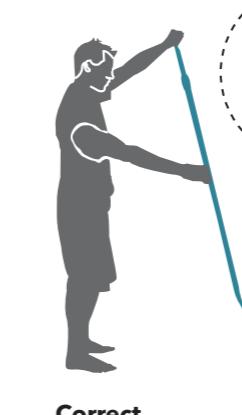

Remarque: Le manomètre ne réagira pas avant d'atteindre 4 psi. Continuez simplement à pomper pendant 3 à 5 minutes!

COMMENT INSTALLER LA PAGAIE ISUP

1 Fixez la goupille à ressort.

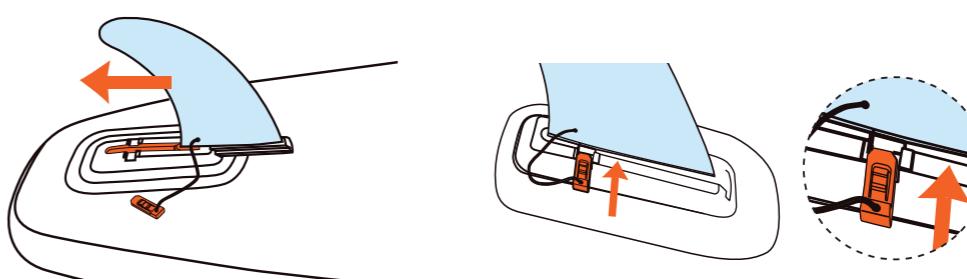

HOW TO HOLD THE ISUP PADDLE

2 Ajustez la tension en faisant tourner le fermoir afin de réduire tout jeu au minimum.

COMMENT INSTALLER L' AILETTE

1 **GLISSER** - Faites glisser la grande ailette centrale dans le boîtier d'ailette.

2 **INSÉRER** - Insérez la goupille à pousser.
